SEXUAL HEALTH SPRING

Wouldn't it be nice if everything in life were simply a casual game influenced by a roll of the dice and the movement of a playing piece? Sex certainly isn’t a game, but it is important to have a game plan—an idea of which direction you want to head in, and how you might handle any obstacles that could throw you off course. While the decisions you make may not be as easy as a child’s board game, you can use this one to help you consider what’s important when making decisions about your sexual health!

By Melanie Johnson, 17, Staff Writer
Talk to your partner about sexual behavior.

Talk to your partner about things that matter to you.

Talk to your partner about what abstinence means to each of you. Go to Abstinence Mountains.

You’re at risk for an STD—symptoms or not. Go to the Health Clinic.
